

ACI Worldwide *Ready for Guidewire*

Accelerator for PolicyCenter

> [Guidewire PartnerConnect™ Solution Overview](#)

The Insurer Challenge

The challenge of winning and retaining customers for insurers falls squarely on optimizing the most frequent customer touchpoints in the policyholder journey: from initial binder payment through premium payments, policy renewals to claims disbursements.

The Solution: ACI Speedpay

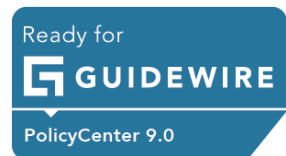

The ACI Speedpay solution enables debit, credit and ACH payments to be staged as the policy is reviewed and provides convenient access to bills and policy documents from any device. Our accelerators tokenize account data to ensure PCI compliance to minimize risk. ACI Speedpay integrates seamlessly with your existing Guidewire Insurance Suite, providing a frictionless electronic payment.

Solution Benefits

- Stage the payment while you approve the insurance application
- Increase policyholder satisfaction with easier ways to pay, such as one-time and recurring payments via credit card, debit card, or ACH
- Boost retention with ACI capturing payment information when binding the policy and storing payment information for processing recurring payments
- Deliver digital insurance cards to your policyholder's smartphone via the moBills feature of ACI Speedpay

Integration Benefits

- To ease PCI compliance, ACI collects, tokenizes, and stores the payment with ACI's industry-leading security.
- Pre-integration with PolicyCenter shortens implementation time
