

Athenium Analytics – Ready for Guidewire

teamthink accelerator for claims quality

> Guidewire PartnerConnect™ Solution Overview

The Insurer Challenge

Many insurers struggle with managing claims quality & preventing leakage on a large scale. **teamthink** makes managing audits easy.

The Solution: teamthink insurance QA suite

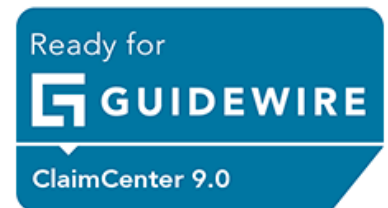

teamthink is a powerful web-based insurance suite for managing claims & underwriting quality. It offers QA automation to help insurers manage audits with greater speed, volume & accuracy.

Solution Benefits (describe your solution, not integration)

- **Measure** performance and analyze results against your best practices, KPIs and compliance requirements.
- **Develop** reviewer questionnaires and audit forms that fully support your specific quality assurance goals.
- **Visualize** results using standard reports and dashboards to quickly understand key metrics.
- **Increase** productivity with questionnaires that display only pertinent information based on the facts of the file.
- **Integrate** company-wide data to understand the performance of people, groups and processes to drive continuous improvement.

Integration Benefits

- Expedite audits by prefilling questionnaires with claims data
- Enhance file selection/assignments by pulling claims data inside **teamthink**
- Access review assignments quickly in the ClaimCenter activities list
- Manage **teamthink** action items inside ClaimCenter
- Pull employee hierarchies from ClaimCenter for use in **teamthink** audits
- Access **teamthink** instantly with your ClaimCenter account using SSO
