## > Guidewire PartnerConnect Solution Overview

### The Insurer Challenge

Insurer pain points come down to finding ways to remove needless steps and administrative tasks that bog down the adjuster. This delays the claim as the adjuster spends wasted time doing tasks not critical to their job.

### The Solution: CLARITY

Modern and scalable, CLARITY is the industry's most advanced auto claims workflow platform. Work in a single, easy-to-use environment for a seamless experience. Features include: intuitive navigation, custom workflow, maximum efficiency, and highest levels of security and data privacy.

### Solution Benefits

- Lower costs
- Improved accuracy
- Flexible methods of vehicle inspection

### Planned Integration Benefits

- Dramatically reduce auto claim cycle time
- Receive live, real-time updates
- Customized data and reporting available

## About AutoClaims Direct (ACD)

ACD delivers the leading virtual claims workflow platform to Auto & Commercial Insurers, TPAs, Fleet Administrators, and Self-Insureds. First to market with the *Touchless Triage™*, three methods of vehicle inspection, the company is hyper-focused on the material damage portion of the claims process. From the start, a claim is put into the right hands for the right outcome.

ACD combines people and technology to streamline the claims process and drive efficiency for adjusters. Using our proprietary workflow technology, insurers are able to lower costs, reduce cycle times, access key data & reporting, and increase customer satisfaction.
