

# Cambridge Mobile Telematics *Ready for Guidewire Accelerator for PolicyCenter*

## > [Guidewire PartnerConnect Solution Overview](#)

### The Insurer Challenge

The recent surge in price sensitivity has come together with an increase of 2.7x in interest for telematics. Insurers with an existing UBI strategy have been able to take advantage of this renewed interest.

### The Solution: DriveWell a complete mobile telematics and behavioral analytics solution.

CMT's DriveWell platform uses mobile sensing and behavioral science to measure driving risk and incentivize safer driving, while its Claim Studio reduces the claims cycle time with real-time crash detection, crash reconstruction, and damage assessment using telematics and artificial intelligence. CMT has more than 50 active programs with insurers and other partners, improving safety for millions of drivers every day around the world.

### Solution Benefits

- Proven scoring models with strong user engagement
- 17% lower loss ratio from program participants
- Materially higher customer retention
- Demonstrated improvement in driving behavior
- Receive real-time notice of a crash to take action
- Access an unbiased crash storyline to increase claim report accuracy
- AI-based crash reconstruction for First Notice of Loss and claims processing

### Integration Benefits

- Facilitate drivers' onboarding onto your new or existing mobile insurance program
- Accelerates go-to-market; integrate your new UBI product in 120 days
- Underwriters risk score over the chosen period in one click
- Price renewal at point-of-quote using individual score
- Rapid access from the customer account management

## About Cambridge Mobile Telematics

Cambridge Mobile Telematics' (CMT) mission is to make the world's roads and drivers safer.

CMT's DriveWell product line uses mobile sensing and behavioral science to measure driving risk and incentivize safer driving, while its Claims Studio shortens the claims cycle with real-time crash detection, crash reconstruction, and damage assessment using telematics and artificial intelligence.

Since its first product launch in 2012 that pioneered mobile usage-based insurance, CMT has become the world's leading telematics and analytics provider for insurers, rideshares, and fleets. With more than 50 active programs with insurers and other partners, CMT is improving safety for millions of drivers every day around the world.

A selection of CMT's insurer customers include State Farm, Liberty Mutual, Nationwide, Erie Insurance, Travelers, AIG and State Auto in the U.S., Admiral in the U.K., Desjardins in Canada, HUK-Coburg in Germany, Discovery Insure in South Africa, and Insurance Australia Group in Australia.

Headquartered in Cambridge, Massachusetts, CMT was created from research at MIT and is now backed by the SoftBank Vision Fund to fuel its rapid growth. To learn more, please visit [cmt.ai](http://cmt.ai) and follow CMT on Twitter @cmttelematics
