

INSURANCE PRACTICE

Guidewire Services: Continuous Improvement

Do You Need Help...

- Identifying and executing on incremental, manageable, post-implementation improvements of your Guidewire InsuranceSuite™ product?
- Planning, designing and implementing an upgrade of your core system?
- Capitalizing on opportunities to innovate through cloud enablement and integration acceleration?

WHAT WE OFFER

- ✔ **Maintain & Enhance** – After implementing a Guidewire InsuranceSuite™ product, we help you establish a long-term support and enhancement model that will evolve the product, improve DevOps and provide flexible staffing arrangements at a fair and reasonable price.
- ✔ **Upgrade** – We partner with Guidewire to apply their technical configuration and upgrade expertise with our world-class project management, business analysis, automated testing, and cloud capabilities. Together, we can tailor your upgrade to leverage highly skilled personnel, both onshore and off.
- ✔ **Accelerate** – Whether you want to implement an automated testing framework, MCCA integration or a test data migration toolkit, we aim our post-implementation accelerators at the continued improvement of your InsuranceSuite product. Want to build an accelerator to your product? We can help with that.
- ✔ **Implement** – Our experienced consultants provide deep Property and Casualty (P&C) industry knowledge on key workstreams in Guidewire InsuranceSuite while our implementation support includes everything from project planning and implementation of key integrations to analytics and deployment.

Centric At-a-Glance

Best

CONSULTING FIRM

Ranked in Forbes among Best Management Consulting Firms 4 times.

Helping Insurers maximize their Guidewire investment through a proven local-market approach, Centric Consulting provides both peace of mind and the ability to improve over time.

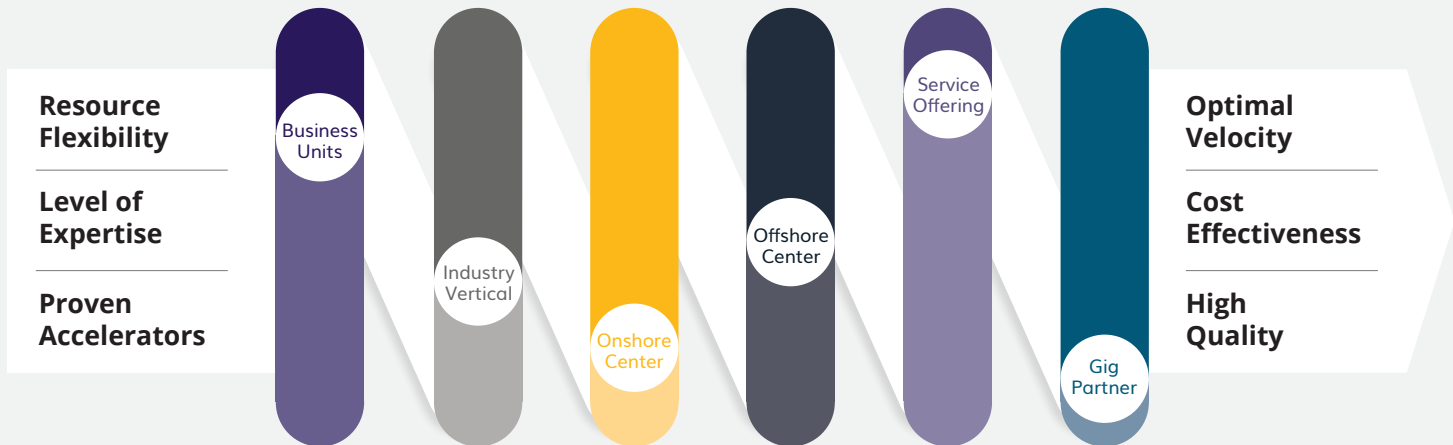

HOW WE MEET YOUR NEEDS

The complexities of a full InsuranceSuite implementation can make it easy to overlook the preparation necessary to support and enhance Guidewire after you deploy. Our Right Site® Engagement Model blends insurance industry expertise with deep business and technology capabilities while combining outstanding flexibility and pace of delivery at a cost point that few can match. Together we develop a flexible, business-driven approach that aligns with IT technical direction. Our laser focus on testing and automation drives quality and enables continuous improvement while reducing total cost of ownership.

Centric's Right Site® Engagement Model

- 1 Clients have unique priorities, goals or constraints such as budget, skills, availability, schedule, etc.
- 2 Every project can have a blend of On-site, Off-site, and Offshore resources that can be throttled up or down at any time based on client needs.
- 3 It is important to integrate our team with your team, independent of how the work is divided.
