

This asset is part of a complete and comprehensive service and it should not be taken as an isolated service. Before activate, requires assumptions evaluation and cost/benefit impact on test cases and times.

# Accelerator for Automatic Testing

## > Guidewire Select PartnerConnect™ Consulting Partner Solution Overview

### The Insurer Challenge

Quickly ensure quality in the event of process changes and between versions.

### The Solution: *AI*Test

**AI**Test is the framework for automatic testing on Guidewire InsuranceSuite™ developed by SBI Technology that through the application of Artificial Intelligence allows to accelerate the implementation of test cases or their reuse in the event of changes in versions or business processes.

#### VERSIONS SUPPORTED:

InsuranceSuite v7 a v10

#### LANGUAGES:

Multilanguage

#### LINES OF BUSINESS:

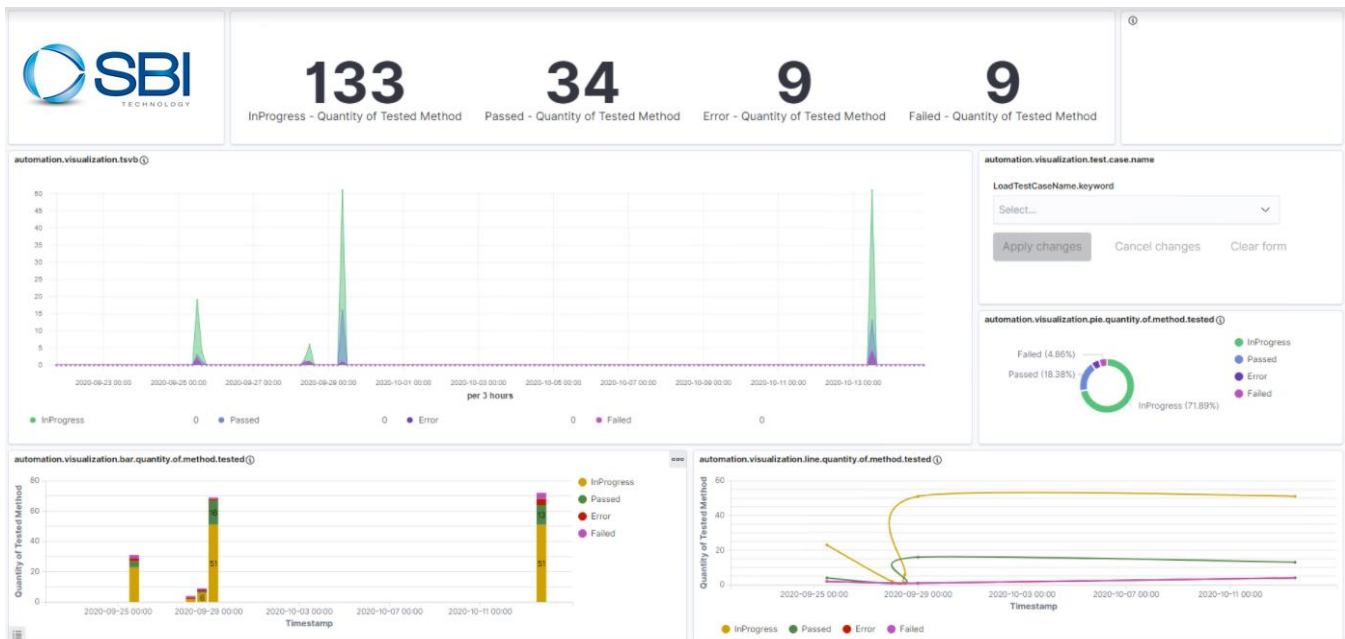

Personal Auto  
Personal Homeowners  
Commercial Lines

Inland Marine

#### Benefits

- Optimize cost and effort through reusability
- Planned and unattended execution
- Prevention and prediction of unexpected results
- Real-time dashboards
- Streamlines process and interface changes
- Accelerates tests in upgrade processes

Throughout the *AI*Test testing experience over Guidewire, SBI Technology has provided QA solutions to solve Guidewire deployment issues that any insurance company could face. Furthermore, SBI Technology has test case packages for each Guidewire module as part of our testing service, given its commitment and continuous improvement of those.

Guidewire Module	Packaged Test Cases	Manual Execution Effort	Automated Execution Effort	Time/Cost saving
 <b>PolicyCenter</b> <small>PolicyCenter</small>	230	105	40	<b>3x</b>
 <b>BillingCenter</b> <small>BillingCenter</small>	90	40	20	<b>2x</b>
 <b>ClaimCenter</b> <small>ClaimCenter</small>	120	60	15	<b>4x</b>
 <b>ContactManager</b> <small>ContactManager</small>	10	3	N/A	N/A

For more than 20 years, SBI Technology has been a leader in providing consulting and implementation services in the insurance industry and has more than 6 years of experience in Guidewire implementations.
