

Your **Partner** in System Implementation **Success**

Improving Quality
Increasing Velocity
Maximizing Efficiency

For over 30 years, ITS has partnered with our insurance customers to help their system implementation projects succeed utilizing 100% on-shore resources.

OUR SOLUTIONS

Insurance Technology Services provides staff augmentation and managed services delivered through a combination of experienced insurance professionals, proven processes and innovative tools. Our solutions include:

- Project Services
- Business Analysis
- Testing
- Data Migration
- Business Deployment
- End-User Training

"Since 1993, Texas Mutual has relied on ITS as a consulting partner on our core insurance system projects. ITS helped us implement our first enterprise system and we went to them again when it came time to replace the system. Their expertise in business analysis, project management, testing, and training has served us well and helped contribute to our success."

- Richard Gergasko, President & CEO, Texas Mutual Insurance Company
