

# Embedded portal for onboarding suppliers and managing payments

Standalone payment systems cost too much, waste staff time, and provide inadequate visibility. **SMART Hub offers a better approach.**

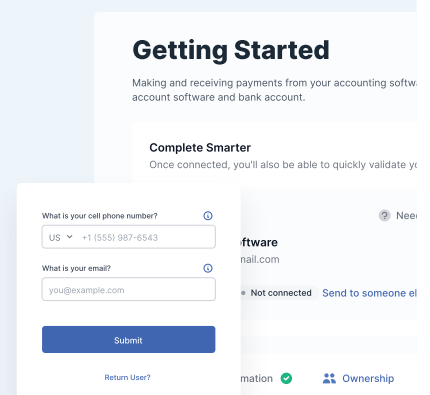

## Streamlined payments operations

Onboard suppliers, manage your inbound and outbound payments, and access real-time payment information all in one place. SMART Hub makes it all possible by rapidly and seamlessly connecting with any legacy software solution, ERP application, or originating bank account.

### Effortless onboarding

Onboarding customers and suppliers has never been faster, more transparent, and more secure.

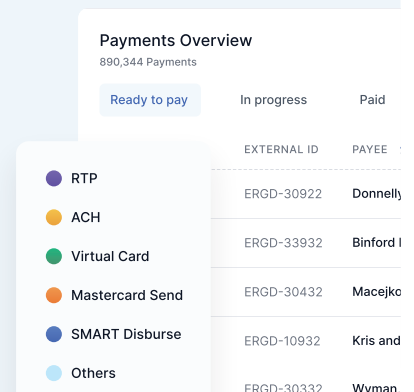

- ✔ Intuitive onboarding process that starts with an e-mail, SMS, or embedded link
- ✔ Automatically verify the identity of customers and partners
- ✔ Eliminate the paper chase by automatically collecting partner documents during onboarding
- ✔ Empower trading partners to self-configure their bank and ERP connections

### Easily manage your payments

Make or request payments without ever leaving your legacy software or ERP.

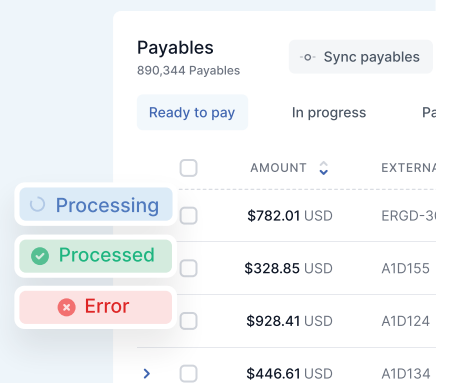

- ✔ Disburse or receive payments of any type, using any payment rail, from any bank account
- ✔ Take control of your cash by instantly making payments or scheduling them for later
- ✔ Accelerate cash flow by requesting payment in real-time
- ✔ Ensure on-time payment with integrated payment terms

### Smart insights at your fingertips

Always know where things stand with your receivables and payables payments.

- ✔ Real-time visibility into pending, in-process and completed payments
- ✔ Effortless access to historical payment information
- ✔ Mobile access keeps decision-makers in-the-know while on-the-go
- ✔ Seamless ERP integration automates reconciliation and speeds the financial close

## Why SMART Hub

SMART Hub transforms the way businesses onboard suppliers and manage their payments.

### Enablement

Seamlessly connect SMART Hub with any legacy software, ERP or one or more banks.

### Enrollment

Effortlessly collect and validate customer or supplier information required for payments.

### Management

Manage all your inbound and outbound payments from a single portal.

### Payment

Leverage a single platform for business, consumer, and account-to-accounts payments.

### Reporting

Always know where your payments stand.

### Industries

Any organization can benefit from streamlined payment operations.

SMART Hub is **ideal** for organizations in:

**Healthcare**

**Government**

**Insurance**

**Travel & hospitality**

**Freight & logistics**

**Real estate**

**Property management**

**Gaming**

SMART Hub provides an all-in-one solution that improves payment operations.

## Get started

Say goodbye to the costs, inefficiency, and lack of visibility that comes with using multiple systems to onboard suppliers, manage inbound and outbound payments, and report on payments.
