

Claims payouts

With more customers willing to change providers if they don't get the level of service they expect, it's imperative that insurers find ways to pay claimants faster, and in their preferred payment method. That's where SMART Disburse comes in.

SMART Disburse gets money into the hands of those who need it – **faster and easier.**

All this can be done fast and conveniently from the claimant's mobile device.

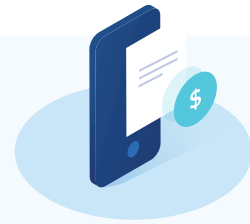

STEP 1

Claimant receives an e-mail, SMS, or embedded link that their claim is approved.

STEP 2

Claimant enters their claim number and verifies their identity.

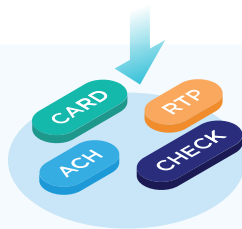

STEP 3

Claimant reviews digitally attached details of their claim payout.

STEP 4

Claimant authorizes payment with a digital signature.

STEP 5

Claimant chooses their preferred payment method and provides details.

STEP 6

Claimant reviews that everything is in order and completes the process.

FINISH

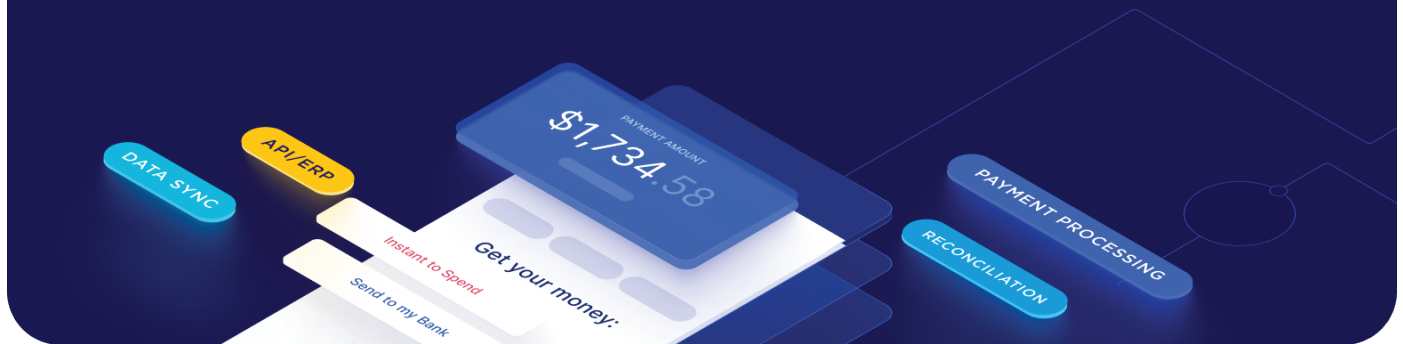

Claimant receives their funds – sometimes within moments.
