

# Workers' comp reporting to meet every state's requirements

## ROBUST DATA POWERFUL ANALYTICS BETTER DECISIONS

Balancing speed and precision is vital to improving claims management. Our trusted solutions leverage quality data and leading analytics to support the best customer experience and enhanced results.

### INNOVATIVE TECHNOLOGIES

AI, machine learning, predictive analytics, RPA, digital forensics, and more

### DEEP DATA

14PB of data, including a proprietary claims database containing 1.4B+ records

### COMPREHENSIVE SOLUTIONS

30+ solutions across the life of a claim and for every line of business

### TRUSTED SECURITY

Nearly 50 years protecting insurer data

### UNPARALLELED INDUSTRY EXPERTISE

5K+ experts in claims management, data science, compliance, medicine, law, and more

## Satisfy varying state standards

Navigating the complexities of workers' compensation state reporting is extremely challenging—but it doesn't have to be. wcPrism® provides a comprehensive suite of tools to simplify workers' comp data reporting.

- **Injury Reporter** satisfies states' electronic compliance requirements for first and subsequent reports of injury (FROI/SROI) with accuracy and confidence.
- **Unit Statistical Reporter** meets data collection organization (DCO) requirements for aggregation and valuation of policy and claim data for the submission of unit statistical reports (USRs).
- **Detailed Claim Information (DCI) Reporter** satisfies DCO requirements for reporting specific claim data elements for randomly sampled claims.
- **Policy Reporter** fulfills DCO and state jurisdiction requirements for reporting policy information (WCPOLS) to individual DCOs and proof of coverage information (POC) to state jurisdictions to avoid noncompliance fines.
- **Medical Reporter** consolidates medical bills into one data warehouse to manage compliance reporting for all DCOs.
- **Indemnity Data Call** meets requirements for aggregation and valuation of indemnity claim data for the submission of the indemnity data call to the DCOs.

A Verisk Business

## Ensure compliance with indemnity data call

With a new National Council on Compensation Insurance (NCCI) indemnity data call taking effect, data reporters will need to submit additional information for indemnity benefit payments. wcPrism helps all data reporters meet the requirements for indemnity claims.

### As data is reported to ISO, we help by:

- triggering the required transactional and quarterly records
- validating records for data errors
- submitting error-free records to the appropriate data collection organization

## Streamline your regulatory reporting

Help your claims staff save time and effort with a fully automated solution that improves accuracy and efficiency in compliance reporting.

Our team of seasoned compliance experts provides comprehensive support to help you eliminate compliance gaps and avoid fines.

“ Our initial reasoning behind selecting a vendor was simple: It was more economical outsourcing with a vendor than trying to do it with our current in-house IT staff. Verisk made this choice even simpler. Not only was Verisk’s bid the most affordable, but ISO’s product was superior overall. ”

**Larry White**

Deputy Director,  
Louisiana Workforce Commission
