

FRISS *Ready for Guidewire*

Add-on for Fraud Detection

> [Guidewire PartnerConnect Solution Overview](#)

The Insurer Challenge

Antiquated, highly manual claims fraud detection processes contribute to low customer satisfaction and excessive payments of illegitimate claims.

The Solution: FRISS Claims Fraud Detection

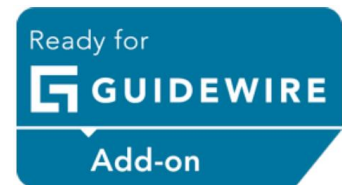

A sophisticated, real-time fraud detection solution, using a variety of internal and 3rd party data sources, powerful AI techniques and risk and fraud indicators analyze and detect fraudulent claims throughout the whole claim process. It all happens instantly, directly within ClaimCenter.

Solution Benefits

- Automatically and consistently screen every claim for the potential of fraud and fraud-related risks, represented by the FRISS score and associated insights
- Drive automated workflows and follow-up activities based on screening results. Fast track legitimate claims to ensure swift payment, or block fraudulent claim (including exposure level) payments
- Claims handlers' feedback on the relevancy of a FRISS score is used to automatically retrain models and improve fraud detection capabilities

Integration Benefits

- Seamlessly integrated into ClaimCenter with instant availability of screening results and details on the Summary screen and Scoring tab
- Automated fraud and risk screenings at multiple stages of a claim's workflow within ClaimCenter, including when:
 - Creating a FNOL
 - A claim contact or related details are added or changed
 - An exposure is created, closed, or re-opened
 - Desired, any time on demand
- Out-of-the box capabilities with reduced implementation time and cost
