

FRISS *Ready for Guidewire* Accelerator for Underwriting Risk Assessment

> Guidewire PartnerConnect Solution Overview

The Insurer Challenge

There are numerous repetitive tasks underwriters need to perform when screening policy applications and renewals. These are error-prone and time-consuming. How can insurers unburden their underwriters to ensure a secure, consistent and continuous risk assessment process, while simultaneously balancing their portfolio based on their risk appetite? This all while facilitating a smooth and frictionless customer journey, as well.

The Solution: Accelerator for Underwriting Risk Assessment

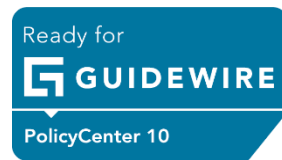

A sophisticated Risk Assessment solution that facilitates real-time decision-making during the policy lifecycle according to the insurer's risk appetite. With the Underwriting Risk Assessment solution, insurers can leverage internal and external data, and can establish straight-through processing while safeguarding a healthy portfolio.

Solution Benefits

- Automatically and consistently screen every policy request at the point of sale, renewal, or change to fit the insurer's risk appetite, represented by a FRISS Score and actionable insights.
- Drive automated workflows and follow-up activities based on screening results. This will fast-track the underwriting process, providing a frictionless customer experience, while blocking undesired risks.

Integration Benefits

- One complete underwriting workflow thanks to a seamless integration into PolicyCenter.
- Automated real-time risk assessment at bind and renewal to support a smooth and fully digitized customer journey.
- Instant availability of actionable screening results and details through the Risk Analysis tab.
