

# Betterview *Ready for Guidewire*

## Integration for InsuranceNow

### > [Guidewire PartnerConnect Solution Overview](#)

#### The Insurer Challenge

Historically, underwriters have relied on self-reported applications and onsite inspections to evaluate property risk. This process has been manual, time-consuming, expensive and prone to error.

#### The Solution: Remote Property Intelligence

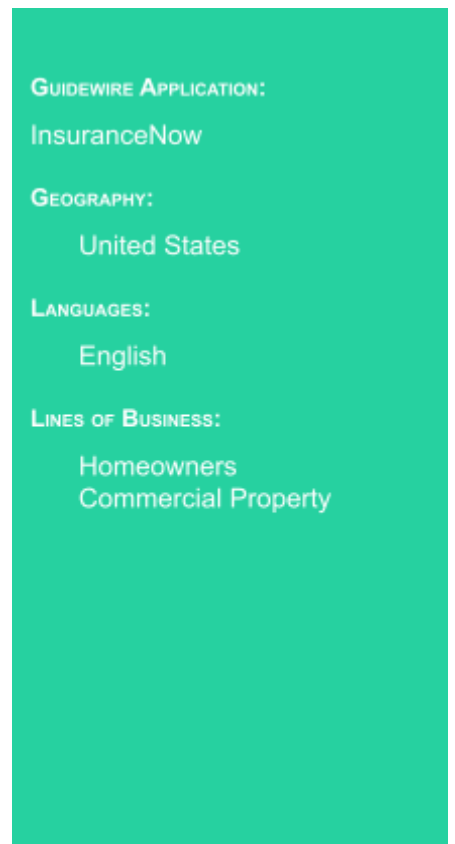

Betterview brings to Guidewire a stream of curated property data, delivering users a holistic and actionable view of real property condition. Accelerate decisioning and drive down expenses throughout the policy lifecycle with the AI-powered predictive analytics from Betterview.

#### Solution Benefits

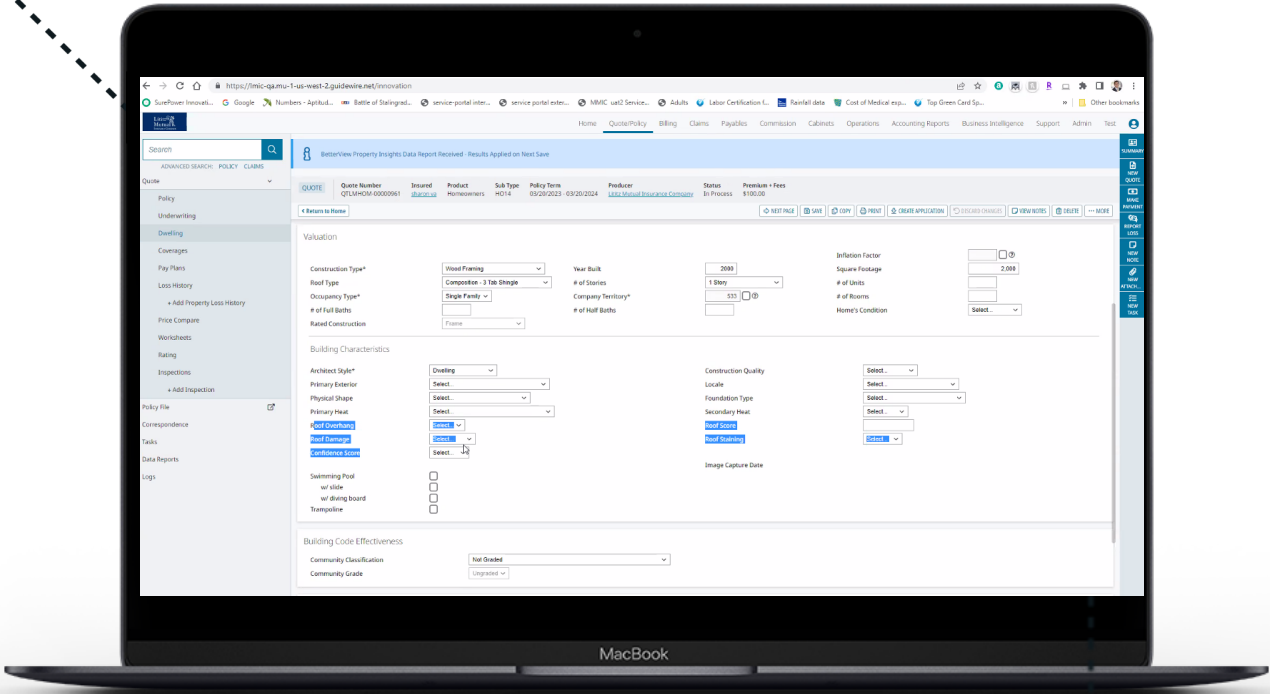

- Fast-track good risks to improve underwriting results and customer experience
- Direct underwriting attention to properties that most need it
- Users report that Betterview influences policy decisions over 70% of the time

#### InsuranceNow Integration Details and Benefits

- Instantly access relevant data points including roof damage, staining, missing shingles, swimming pool
- Reduce reliance on physical inspections using high-quality aerial imagery, sophisticated computer vision models, and a library of third-party property data.
- Predict and prevent losses, maximize efficiency, and better serve customers.

Navigate what's next.

## About Betterview

Betterview applies Artificial Intelligence (AI) and computer vision to aerial imagery and geospatial data generating the most accurate property information insurers trust to automate pricing, underwriting, and renewals while focusing strategic action on critical properties. Combined with flagging, continuous monitoring, and pre-filed peril risk scores, Betterview is helping transform property insurance from Repair and Replace to Predict and Prevent.
