

For claims involving a Medicare eligible claimant, certain steps must be taken to comply with the Medicare Secondary Payer statute. ECS Connects for Medicare Compliance ensures full compliance with the Section 111 Mandatory Insurer Reporting requirements to mitigate risk of Civil Money Penalties, and expedites the referral process for additional services needed to ensure Medicare's interests are taken into account when settling claims.

# Solution Overview

## Challenge

Failure to comply with Medicare guidelines or submit required Section 111 data can generate costly civil money penalties, upwards of \$365,000 per claim for non-compliance and late reporting of claims. Finding the time to track conditional payment demand letter disputes, appeals or just staying up to date with the latest requirements is overwhelming.

## Solution

Seamlessly transmit claims data and remove the guess-work out of what, how and when to report to Medicare. And, ECS Connects allows for single click requests of additional services like Medicare set-asides for settling claims – all without leaving ClaimCenter.

## Benefits

- Flexible Data Exchange, Including Batch Files and API Exchange
- Real-Time Compliance Feedback with Section 111 Submissions
- 99.99% CMS Acceptance Rate
- Avoid Civil Money Penalties due to late reporting of claims
- Increased Accuracy with API Integration for Real-Time Data Exchange and Feedback
- Bulk Claims Updating through Batch Processing
- Immediate View of Medicare Data Directly in ClaimCenter
- Save Time by Submitting Referrals for Additional Medicare Compliance Services for Claim Settlement without Leaving ClaimCenter
