*Ready for Guidewire Validated Integration*

## Solution Overview

### Challenge

Insurers are continually looking to automate repetitive processes, enhance profitability, and make it easier for agencies to do business with them. Posting and reconciliation of payments from agencies is a manually intensive process.

### Solution

InsurePay Reconciliation is embedded into major agency management systems with which, agencies can issue premium payments with automated and standardized reporting to all carriers. This is all done without leaving the agency management system.

### Benefits

- Save time
- Save money
- Simple implementation
- Eliminate check fraud
- Custom Designed for Insurance Industry
- Customize and Manage Users
- Real Time Notifications
- Access and Manage Payment Reports
- Automated Reconciliation Report
- Bank Level Security

## About Partner

InsurePay® is a leading Insurtech SaaS platform that enables the accuracy of premiums, integrated payments, and reconciliations in real time for Agencies, Carriers, MGAs, and insurance technology providers. InsurePay® is empowering Carriers and their partners to allow policyholders to pay only for what they need with real-time system and data-driven accuracy and flexibility, through a feature-rich platform that offers policyholder payments, Carrier PayGo and payables, vendor payables, and claims payments and Agency receivables all integrated to back-office core systems.
