

Your fully integrated digital payment solution.

ECHO® PayPilot® is the industry-leading digital payment solution for B2B, B2C, and multi-party payments for home, auto, and workers' compensation insurers using Guidewire ClaimCenter.

Built for insurers that want more & claimants that expect more.

Advantage Level Partner

Ready for Guidewire Validated Integration

Solution Overview

Challenge

The insurance landscape is fundamentally changing – from inflation, the pandemic, and supply chain disruptions to rising claims inflation and growing competition. Policyholders are used to seamless payments for most daily transactions – with ever increasing expectations for the same experience from their insurance provider.

Solution

Our fully integrated digital payment solution provides integration, automation, reconciliation, flexibility, and scalability. Optimize ClaimCenter with ECHO PayPilot to gain a competitive advantage, deliver transformational growth, and boost your bottom line.

Benefits

- **Integration:** Empower your team with access to comprehensive digital payment capabilities including real-time updates directly in ClaimCenter.
- **Automation:** Pay claims faster with a solution built to handle insurance companies' specific use cases and workflows.
- **Reconciliation:** Save valuable time with automated reconciliation, making reconciliation at the group and sub-group level easy and hassle-free.
- **Flexibility:** Provide your team with a flexible, secure application tailored to fit your unique needs, use cases and workflows.
- **Scalability:** Implement a solution designed to scale and grow with your evolving business needs and across lines of business.

About Partner

ECHO® is a technology company focused on removing complexity and costs from payment processing. We save our customers over \$1 billion annually through the claim payment process and provide access to the ECHO Payment Network, the industry's largest network of insurers and service providers. ECHO settles over 600 million claims and distributes over \$140 billion in payments securely across the ECHO Payment Network annually.

Proprietary ECHO technology drives customer satisfaction for policyholders and service providers by offering payment choices, ensuring payments and EOBs/remittances are sent as they prefer. ECHO reimagines digital payments by driving the greatest efficiencies for clients and the greatest flexibility for payee choice.
