

## Premier Partner

Ready for Guidewire OnBase Accelerators for InsuranceSuite

Hyland's OnBase Accelerators for InsuranceSuite make it unnecessary to start from scratch for each client engagement. The accelerators help Guidewire customers reduce the time, cost and risks associated with integrating content management capabilities as part of a Guidewire core transformation initiative.

# Solution Overview

## Challenge

Today's insurance consumers expect fast and efficient service during key interactions such as new business, underwriting and claims. They also want a swift and seamless experiences when making policy changes or paying premiums. When information and content is located in disconnected systems, insurers don't have the insights to make informed decisions or deliver the level of service that consumers expect.

## Solution

Hyland's OnBase Accelerators for InsuranceSuite help insurers connect their new business associates, underwriters and claims examiners with all the information and content stored in OnBase at the click of button. Guidewire users can easily access and review content associated with the application or claim without leaving the Guidewire system. This empowers insurers with a complete view for decision-making and the ability to deliver exceptional service to their policyholders.

## Benefits

- The Ready for Guidewire OnBase integration accelerators include pre-built, tested and validated code to enable a quick and cost-effective implementation.
- OnBase delivers instant access to data and documents within the context of the Guidewire client and the application or claim — empowering end users to deliver best-in-class customer service.
- Point-and-click configurable components provide out-of-the-box configuration with no API programming.
- Hyland's OnBase enterprise content platform extends the power and value of your Guidewire investment — whether on-prem or cloud-native.

## About Partner

Hyland provides industry-leading technology foundations that empower insurers to create better customer connections. Trusted by over 525 insurers, Hyland's intelligent solutions seamlessly integrate content, data and processes to improve each interaction. Our suite of modern content management and process automation solutions enables you to transform the way you work and support policyholders.
