

Advantage Partner

Ready for Guidewire Validated Integration

Solution Overview

Newgen OmniDocs Contextual Content Services platform provides a complete view of all the case-related content in the ClaimCenter and PolicyCenter through a unified interface. It enables users to store, organize, and access content from a single place. Also, it facilitates seamless collaboration, better decision-making, easy information access, and effective document management.

PolicyCenter 10

Challenge

Inability to capture content from multiple sources and difficulty in managing content without a secure, centralized repository; along with the lack of an integrated and unified interface for accessing content within Guidewire ClaimCenter and PolicyCenter.

Solution

Newgen OmniDocs Contextual Content Services platform provides a complete view of all the case-related content in ClaimCenter and PolicyCenter through a unified interface. It enables users to store, organize, and access content from a single place. Also, it facilitates seamless collaboration, better decision-making, easy information access, and effective document management.

Benefits

- Pre-built integration with Guidewire ClaimCenter and PolicyCenter
- Single interface to access and interact with case-related content
- Capability to capture, store, organize, and manage content in a centralized repository
- Powerful search engine to locate content easily and quickly
- Standard file naming convention, improving document discoverability

About Partner

Newgen is a leading provider of OmniDocs Contextual Content Services platform that complements the core insurance products. The platform enables end-to-end content lifecycle management while providing the flexibility to access and deliver digital content. This integrated solution empowers customers and employees with easy access to content, thereby driving informed interactions with compliance, security, and scalability.
