## Challenge

When a claim is filed and processed, homeowners receive a check from their insurance company with their name and their mortgage servicer's name listed since both have a vested interest in the property. This can be frustrating for the customer as they want to quickly fix their home but must wait for the mortgage servicer's endorsement of the check.

## Solution

To alleviate the policyholder's frustration and expedite the availability of claim funds to begin repairs, Assurant took a holistic view of the process, starting with the creation of the insurance claim check. Through this connected solution, we discovered a way to work side by side with insurance carriers to create a positive change for our mutual customers. By implementing Assurant's CDE Accelerator your adjuster can instantly transmit claim information to our system and immediately receive payment instructions as to whether the payment can go directly to policyholder, omitting the servicer's name.

## Benefits

- Instantly transmit claim information and receive immediate payment instructions.
- As much as 75% of the time, the insurance carrier can issue payment directly to the customer and omit the mortgage lender's name on the check.
- Fewer calls regarding check endorsements.
- Quicker payments.
- Increased customer satisfaction.

## About Partner

Assurant, Inc. (NYSE: AIZ) is a leading global business services company that supports, protects and connects major consumer purchases.
