

## our vision

Recognizing and experiencing first-hand the industry's frustration with poor customer support, outdated technology, and inefficiencies of existing products, accūro Solutions was formed.

Our company - and core technology - was built and operates to exceed expectations in today's complex world - with evolution in mind.

## our values

- ✓ **Client-first - bringing customer service back to the industry**
- ✓ **Lead the industry with cutting-edge technology**
- ✓ **Build with flexibility - no "cookie cutter" solutions**
- ✓ **Act with care**

## our solutions

### Physical & Virtual Mailroom

Modern document-capture technology fully digitizes and automatically organizes documents - ensuring both reduced costs and risk.

### Aggregate Payment Model

Integrated payment model with a "one payment, one process" system, creating savings and reducing administrative burdens by streamlining payment processing.

### Bill Review & Workflow Management

Efficient ARC platform with built-in tools that allow for deeper analysis and savings opportunities in the bill review process.

### Reporting & Analytics

Robust data and proprietary AI solutions help identify opportunities to improve outcomes and efficiencies.

# ARC

Modern development tools to deliver new features in less time.

Quick, easy integration to meet unique workflow requirements.

Tailored for electronic billing, electronic payments, and regulatory reporting.

Modular design is in our DNA.

Our cloud-native ARC (automation, reliability & collaboration) platform is built to allow unprecedented flexibility and scalability.
