

CASE3 Technologies

AI-first Guidewire delivery. Measured on outcomes.

CASE3 Technologies is an AI-first system integrator dedicated to Guidewire. We help Property & Casualty insurers implement, migrate, and run Guidewire Cloud Platform — faster, and with less delivery risk. Every engagement runs on AI-DLC, our proprietary delivery platform, which manages the full implementation and Run/Change lifecycle and consistently delivers 50%+ productivity improvement over conventional estimates.

A proud member of Guidewire's PartnerConnect Consulting Select program, CASE3 serves insurers across North America, Europe, and Asia-Pacific, with active delivery in all three regions. Every member of our delivery team is Guidewire certified ensuring alignment to Guidewire's product & technology roadmap.

What we do

CASE3 helps Carriers transform from a traditional approach to an AI led model, tailored to match their pace.

- **Managed Services** — Run/Change support for production environments
- **Cloud Upgrades** — Drive optimized on-prem to Cloud including GCU optimization
- **Guidewire Cloud Platform (GWCP)** — Business consulting, New deployments and Cloud conversions
- **Architecture & Integrations** — Third-party & ecosystem integrations, Architecture beyond core
- **Forms** — Design, Configuration, and Automated conversion
- **Migration** — Expertise in Open/Closed Claims, Historical Policy Migration & Conversion on Renewals
- **Reporting and Data management**
- **Quality assurance and Test automation**

Our accelerators

- **AI-DLC Platform** — AI-managed delivery across the entire implementation and Run/Change lifecycle: estimation, knowledge management, build, and test
- **Forms Conversion** — automated conversion of legacy forms into Guidewire
- **Test Automation** — purpose-built regression and release testing for Guidewire Cloud

Proven results

Run/Change, North American P&C carrier. CASE3 took over Run and Change operations and delivered **45% cost savings in the first year of engagement**, with savings projected to **exceed 60% in Year 2** as AI-DLC's accumulated knowledge base and automation coverage compound.

Why CASE3

- **AI-first by design.** AI-DLC is the delivery model, not an add-on. Institutional knowledge is captured once and reused across every phase and every release — so quality doesn't depend on who happens to be on the team.
- **Guidewire-only focus.** Our entire practice is Guidewire. No generalist staffing, no learning on your budget.
- **100% Guidewire-certified team.** Every practitioner on your engagement carries Guidewire certification — supported by AI tooling, not pyramid staffing.
- **Outcome-based engagement.** We commit to measurable results – time, quality, and cost — not just effort
- **Built for the cloud cadence.** Run/Change, upgrades, and releases are treated as a continuous discipline, so clients stay current on Guidewire Cloud without disruption.
