STRATUS
An Infosys company

COMPANY OVERVIEW
2026.09

Modernize.
Without Disruption.

INSURANCE TRANSFORMATION
PARTNER FOR P&C CARRIERS

We believe technology should empower insurers, not disrupt their business. Stratus helps P&C carriers modernize with confidence, combining deep insurance expertise, Guidewire delivery experience, and a people-first approach to deliver lasting business outcomes.

As a focused insurance transformation partner, Stratus competes with the largest consulting firms by delivering what scale alone can't: senior-level attention, deep P&C expertise, greater agility, and a delivery model built around carrier outcomes. As an Infosys company, we combine global delivery scale and enterprise-grade capabilities with the accountability and hands-on leadership of a specialized insurance partner.

WHY PARTNER WITH STRATUS

01 **Deep P&C expertise, delivered with agility**

02 **Strategic transformation guidance, start to finish**

03 **More efficient delivery model with a higher return on investment**

04 **More efficient delivery model**

05 **Outcome-driven approach, not billable-hours thinking**

06 **Proven delivery across core systems, data, and cloud**

PROVEN WITH CARRIERS LIKE YOURS

"Stratus was a key partner in our cloud migration. They quickly understood our needs, accelerated the entire process, and delivered the expertise and quality we couldn't have efficiently achieved on our own."

Mark Pitchford
COO, California Casualty

"Working with the Stratus team on our organizational change management initiatives has been a game-changer. They brought structure, clarity, and a people-first approach that helped drive adoption and alignment across our teams."

Staci A. Crane, MBA, CISA, CIA
AVP Corporate Development, Horace Mann

WHAT WE DO

Two connected capabilities, one focus: helping P&C carriers modernize the right way.

STRATUS
An Infosys company

01

Transformation Solutions

Six services

Core System Modernization

Modernize policy, billing, claims, and supporting operations for cloud-enabled growth.

Data Modernization

Turn fragmented data into trusted, governed, AI-ready information.

AI Execution

Move AI from idea to measurable business impact, responsibly.

Guidewire Implementations

End-to-end Guidewire delivery across new products, state rollouts, migrations, and enhancements.

Guidewire Upgrade Services

Structured on-prem-to-cloud upgrades that reduce risk and cost.

Packaged Solutions & Accelerators

Proven assets and accelerators that shorten delivery timelines, reduce risk and improve consistency.

02

Development & Support Solutions

Six services

Application Maintenance & Support

Stabilize platforms, resolve issues faster, and continuously improve performance.

Strategic Delivery Support

Experienced leadership to keep modernization programs on track.

Accelerator Implementations & Upgrades

Implement and upgrade proven Guidewire accelerators using repeatable tools, templates, and delivery practices.

Quality Assurance

Insurance-specific testing and automation for confident releases.

Organizational Change Management

Align people, processes, and leadership to drive adoption and sustain change.

Staff Augmentation & Talent Acquisition

Experienced insurance technology talent for critical roles and delivery needs.

Let's talk about what modernization could look like for your organization.
